

ADVISORY FOR ALL ACT 144 CERTIFIED FIRMS

The responsibility for administering Act 144 has been returned to the Bureau of Fire Services. We will be reverting to the certification numbers with a designation for

A-Alarm, S-Suppression or AS-Alarm and Suppression. We will also return to a firm being certified only in the category or categories in which they are qualified.

In the near future we will be sending out a form to update all your company information. A copy of the form is available here for you to fill out in its entirety and return to us electronically.

All fire alarm contractors shall renew their certification with their electrical license due December 31, 2006.

All fire suppression contractors will be notified of their expiration date in 2007.

The Bureau of Fire Services and the State Fire Marshal are looking forward to working with everyone in the interest of fire safety.

Donald E. Welch
